LJUSDAL

The Swedish Green Party in Ljusdal prioritizes three issues this election:

The human

We prioritize the mental health and optimism of our children and youth.

We need to stop the savings in the schools, and instead funnel more resources there. Focus on the wellbeing of our elderly. The elder care needs more resources.

The planet

The climate and biodiversity, alongside global peace, need to be taken seriously.

Refugees shall be guaranteed a safe haven and security in Ljusdal.

Ljusdals needs to change. The planet's limited resources need to be distributed fairly and used sustainably.

The municipality

All parts of Ljusdal—Järvsö, Färila, Los, Ramsjö and the city, as well as the smaller villages—should be developed, not dismantled.

We oppose all plans for a central högstadium. Public transit must be accessible for the entire municipality.

Our philosophy:

Solidarity with fauna, flora and the ecosystem.

Solidarity with future generations.

Solidarity with everyone living today.

Our candidates for the municipal council are:

Karin Jansson
072-505 71 14
